Ideas

. . . in western pine

YOU . . .

and the WESTERN PINES

IDAHO WHITE PINE
PONDEROSA PINE
SUGAR PINE

Whether you're building a "new," remodeling an "old," or just dreaming ahead, this is a book of ideas for you — friendly home ideas in Western Pine.

Inside and out, there is a place for Western Pine wood in every part of your home. As a siding it is noted for its straightness, paintholding qualities and dimensional stability. As an interior it is famed the world over as paneling, both in natural and painted finishes. Knotty Western Pine alone has found its way into millions of hearts; and in woodworking, it is Western Pine two-to-one.

Sheer beauty direct from the magnificent forests of our great Western Pine Region; warmth when you want it, coolness when you need it; and an atmosphere of intimate glow and cheer — the world's finest softwoods . . . those are the Western Pines.

Coming to you in a supply that will never cease, great quantities of the Western Pines are grown on private tree farms and other managed forests. Each one harvested is carefully selected so younger trees around it can in turn grow and themselves eventually be harvested to carry the cheer of Western Pine to still more homes.

Western Pine mills also produce great quantities of other woods—known as the Associated Woods of the Western Pine Region. Like the Western Pines, these are manufactured under precise and exacting standards as set by the Western Pine Association. Among the ideas presented in this book are included pictures of these other fine woods from the Western Pine Region.

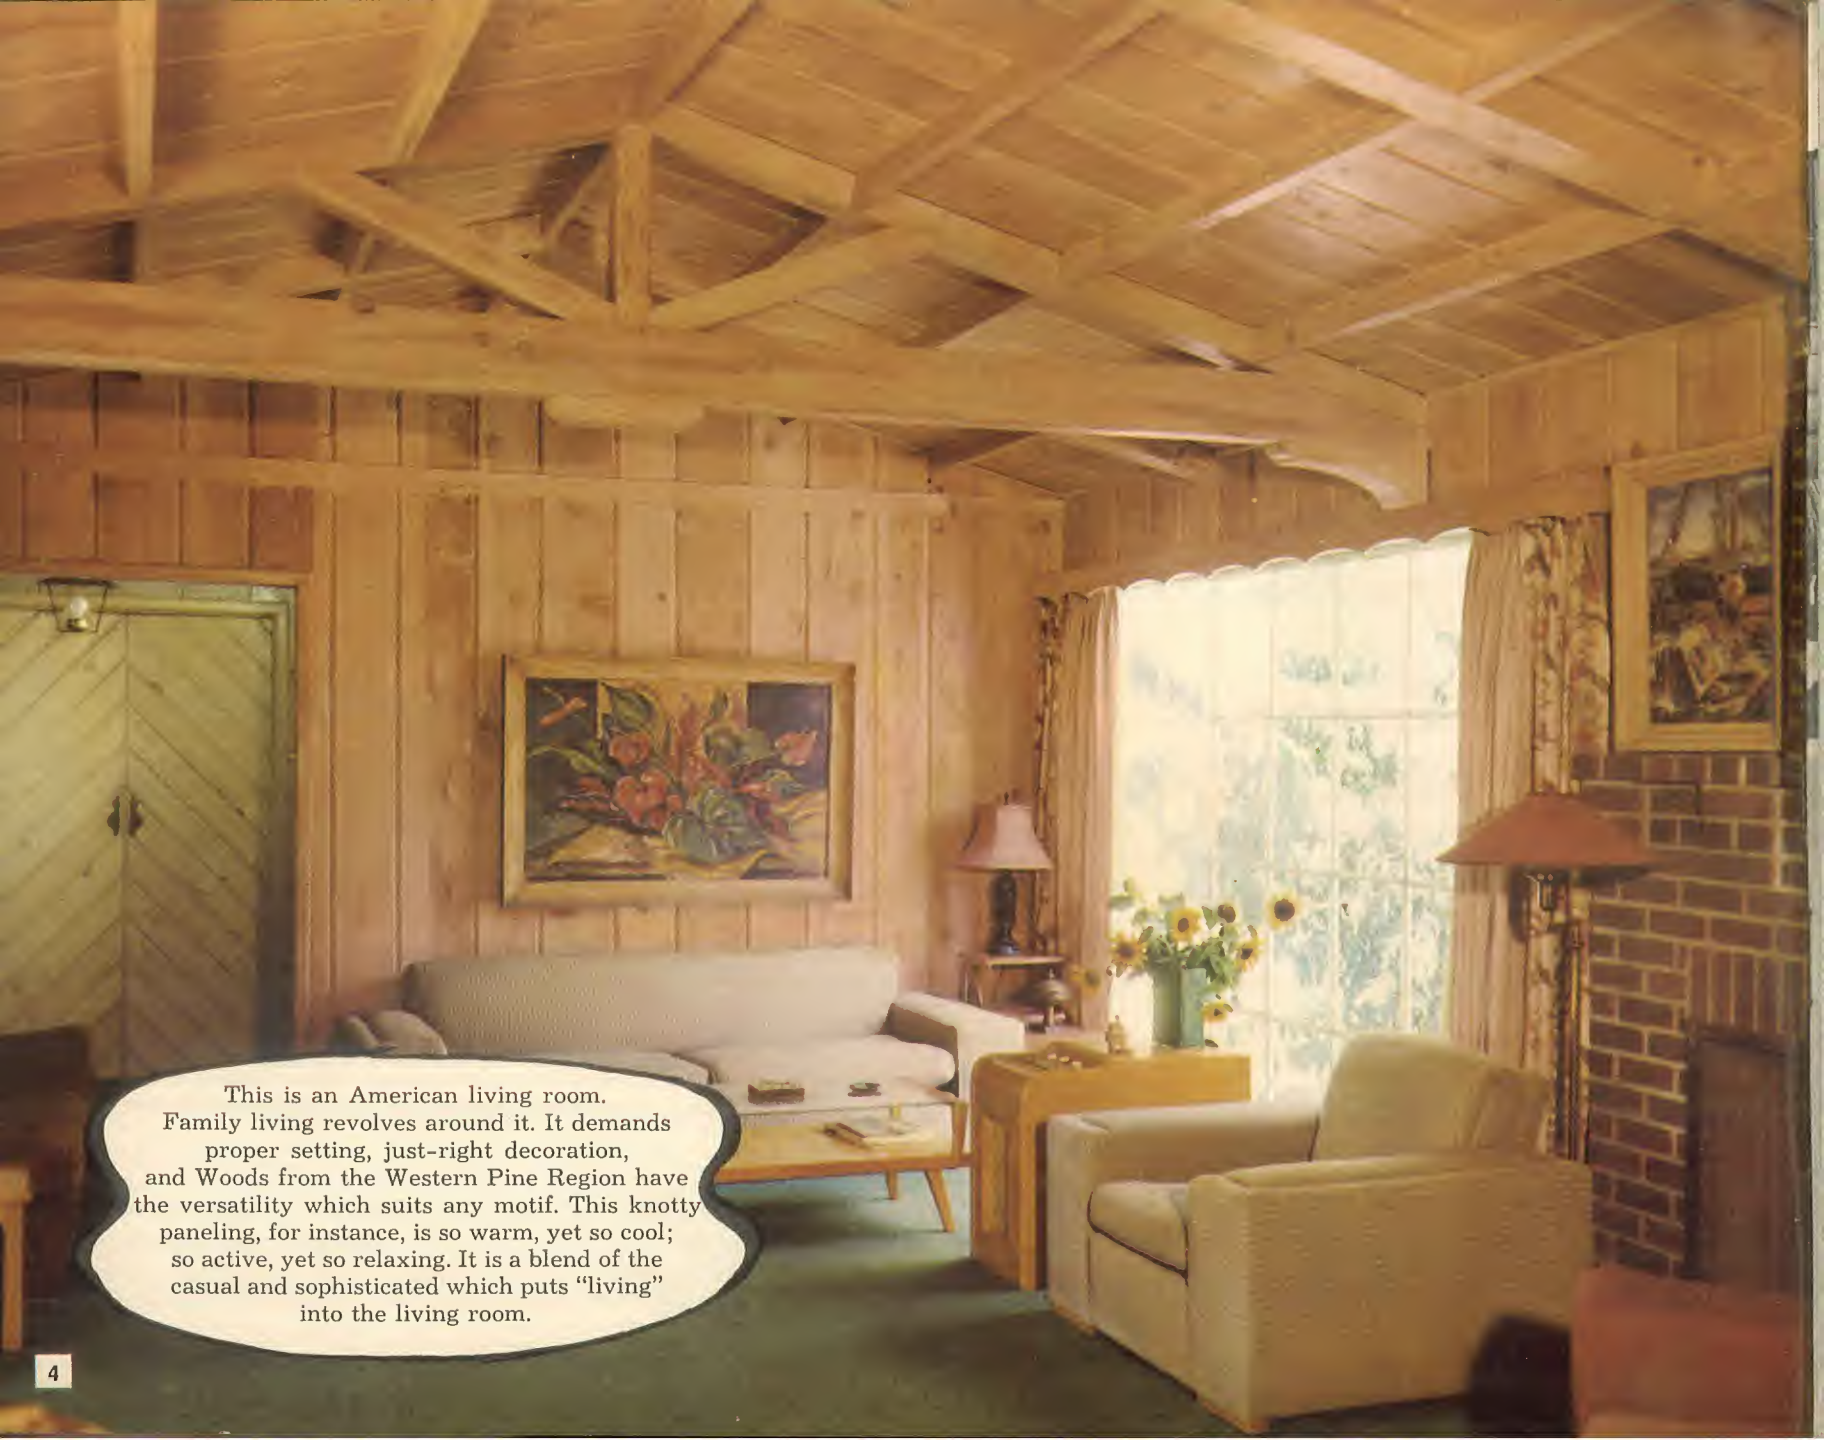

This is your book, bringing to you the romance of the open forest, the qualities of its wood, and the warmth of its heritage—all in friendly home ideas. To select the woods for your new, remodeled or dream home, see your retail lumber dealer immediately. He will gladly furnish advice on sizes, grades, patterns and costs.

Ideas
in
WESTERN PINE

This is an American living room. Family living revolves around it. It demands proper setting, just-right decoration, and Woods from the Western Pine Region have the versatility which suits any motif. This knotty paneling, for instance, is so warm, yet so cool; so active, yet so relaxing. It is a blend of the casual and sophisticated which puts "living" into the living room.

living rooms

Popular, pleasant, pretty pine. So neat and useful, it fits most any theme.

Aloof from the world, library with wise old touch to modern new motif appeals to intellectual urges.

Simplicity of nature and modern design combine here in semi-formal setting. Clear Western Pine is well-suited to built-ins such as these shelves, cupboards.

You can't beat Western Pine for paintholding abilities. Here is a sample, a treat to the eye from any angle.

Horizontal and vertical paneling provides the perfect backdrop for a wonderful fireplace like this! Design is enhanced by angles of slopping ceiling—patterned slopping of knots.

Like a song, paneled walls add charm, mood, to everyday living.

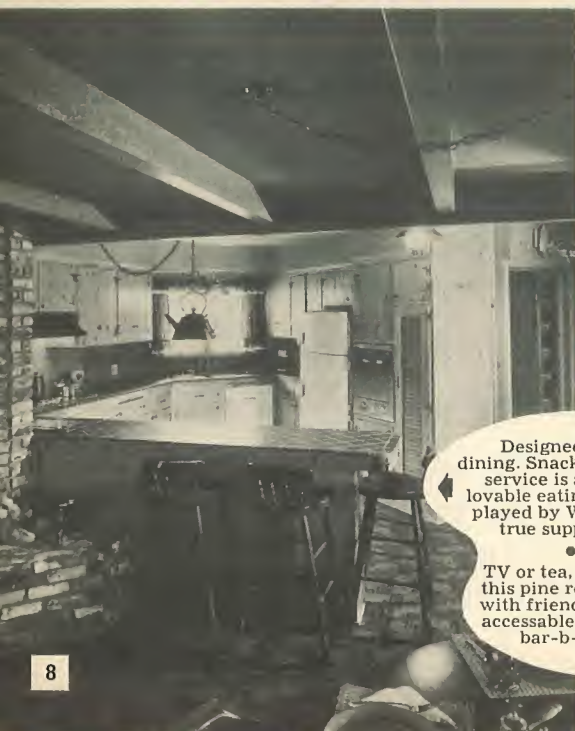

Dining rooms

Knotty but nice.
Happy pine, happy
meals. After dinner
lingering a pleasure
in such company.

Rustic charm of
rough surfaced
paneling—real
personality in
friendly home of
Western Pine.

Designed for ease in
dining. Snacks or formal fare,
service is a cinch in this
lovable eating area. Note part
played by Western Pines—
true supporting cast.

TV or tea, true charm in
this pine room so packed
with friendly comfort, so
accessible from kitchen,
bar-b-cue patio.

Suave but sweet.
Clear Western Pine
paneling blends
sophistication with
wood-warm charm.

The dining room is often the site of both formal and informal fare. It is a room which demands extra-special treatment in style and color. Appetites or esthetics, satisfaction is guaranteed when meals are served to the tune of Western Pine. Built by Yoder and Mueller for warm, cheerful dining.

Something to crow about, surely. A dining room pined top to bottom, with just the right bit of small-patterned paper between.

The motif is moderne, but Knotty Paneling adds a pleasant, pleasing texture and pattern. Dine formally at the table, or casually at the bar.

Recipe for adventure in good eating: pine, paper and fireplace; mix well, warm with fire. Spice with natural finish and serve in paneling, cabinets and built-ins.

doors & windows

Wild and windowy. Knotty Pine, out-of-doors combine in pleasant harmony.

Free as the breeze. Windows in Western Pine let the out-of-doors in when you need it, keep it out when you don't.

Charming veranda in the modern manner. Knotty Western paneling rough-milled for eye appeal, contrasts with natural finish of pine ceiling.

Rustic and practical, this rough-hewn double doorway is in naturally finished Western Pine.

Springtime in, winter-time out; windows of wood offer wonderful viewing, perfect lighting.

Doorway in Dutch, with a Western Pine touch. Light-color effect in paneling is produced by rubbing in pigment finish.

Pine and picture windows. Designed by Cliff May, a perfect reflection of nature, both inside and out.

Busy and happy, and as colorful as a garden. The walls of this beautiful living room are Knotty Western Pine, with the knots allowed to penetrate through the paint. No room in the house is more often the center of family activity, entertaining or living than this or any living room.

Charming bedrooms are the mark of sound thinking, sound sleeping in today's modern home. This painted Western Pine adds a sparkle that's surely a thrill to awaken to. Like morning sunshine itself, and pine is so easy to keep clean, so long-lasting and durable.

bedrooms

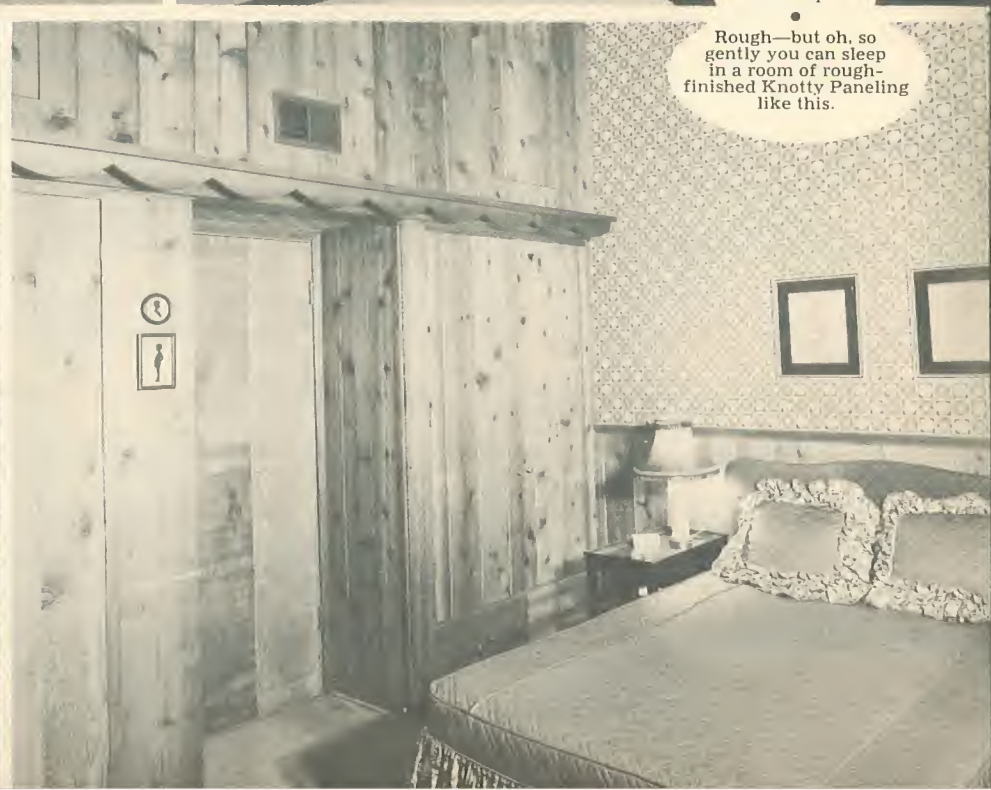

Wainscot in Western Pine matches birdseye of furniture, and sleep is a wonderful dream in a peaceful setting.

Dreamy Western Pine, friendly native stone. After another chapter and a cigaret, then to sleep.

Sleepytime? Make a neat getaway to dreamland. A place for every item, tie to top coat, in this remarkable bedroom of Western Pine.

Rough—but oh, so gently you can sleep in a room of rough-finished Knotty Paneling like this.

Happy Day! T'will be just that should you greet it each morn from this room paneled in the happy Western Pines.

For every day—or just for summer—the Western Pines have a super versatility. Here it is in Knotty Pine paneling and log cabin siding. Top bunks swing down, become backs of couches during the day.

A Western Pine panorama through Western Pine windows. Snug, strong and beautiful, a sight for any sleepy eyes.

Bathroom beauty. Not a wasted cubic inch in this Knotty Pined bathroom. Easy maintenance, stability, make pines desirable in home's every room.

Knotty Pine, rubbed and pigmented, does yeoman duty in this bathroom. Durable, easy to keep clean, pines carry their charm to every corner of the home.

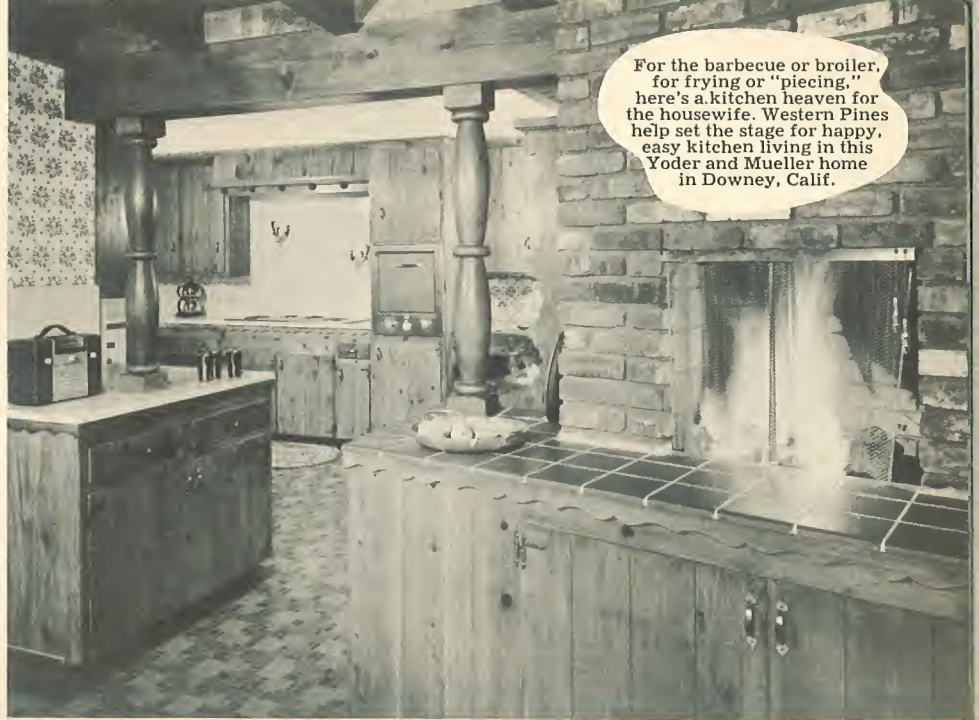

Kitchens

A kitchen on a living basis. Not the sterile, clinic coldness of so many kitchens. But one warmed instead with happy Western Pine. The air of common labor is changed to an atmosphere of delightful living when kitchens are cheered this way. Easily cleaned and needing almost no maintenance, the Western Pines have long been accepted as ideal for making home work areas livable—and loveable, too.

Eye appeal in Early American.
No clinic-like kitchen this—
just Western Pine in all its
glory. Durable, easy to keep
up, and tops in friendly charm.

For the barbecue or broiler,
for frying or "piecing,"
here's a kitchen heaven for
the housewife. Western Pines
help set the stage for happy,
easy kitchen living in this
Yoder and Mueller home
in Downey, Calif.

Warm and Western Piney.
Kitchen for convenience
carved out of Knotty
Pine, brick and brass.
Pattern of wallpaper
echoes knot patterns.

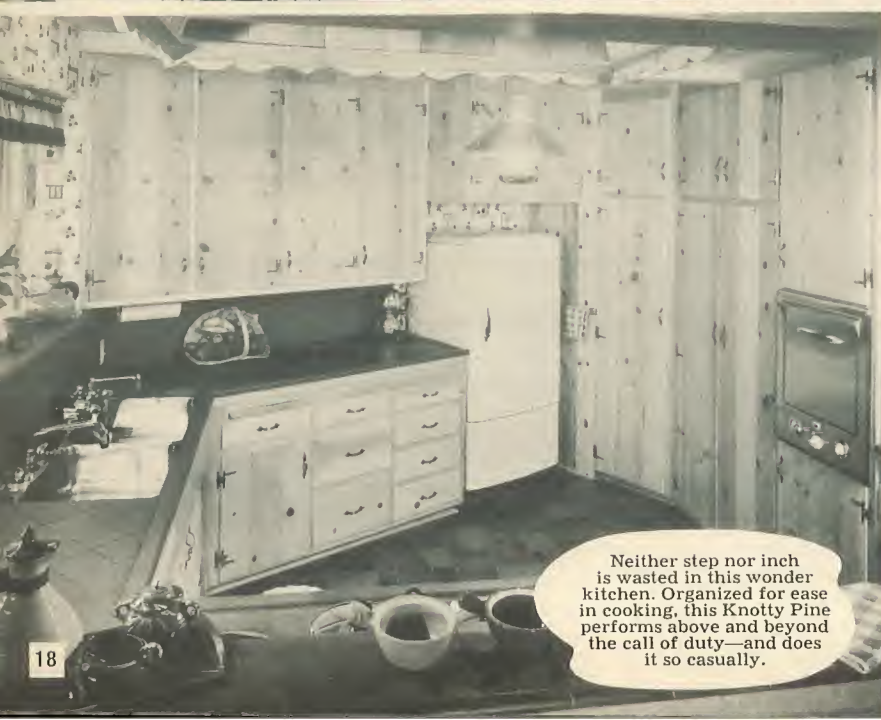

Talk turkey over this one! With Western Pine trimmin's, this traditional theme is enhanced by blend of brick, copper, paper and planning.

Pass-through in pine. To serve direct or to save time in regular meal-making, it is in Knotty Western Pine, of course.

Western Pine in a light Salem finish. And a mellow, warm glowing kitchen is the result. As practical as it is beautiful, too.

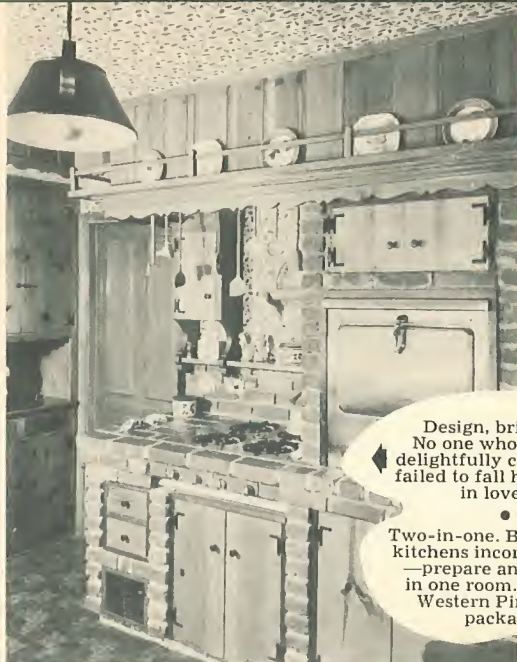

Neither step nor inch is wasted in this wonder kitchen. Organized for ease in cooking, this Knotty Pine performs above and beyond the call of duty—and does it so casually.

No joke in this deck. Perfect planning, perfect pining. Sandwich bar to furniture, cabinets to beams, all is Western Pine.

Dishwashers, too, in Knotty Pine. Special panel replaces metal plate in this model.

Design, brick and pine. No one who ever saw this delightfully cheerful kitchen failed to fall head-over-heels in love with it.

Two-in-one. Both new and old kitchens incorporate this idea—prepare and eat meals all in one room. Bright, happy Western Pines tie up the package deal.

A kitchen to LIVE—not work—in. Many a happy housewife has Knotty Western Pine to thank for pleasant, comfortable kitchen areas.

For culinary engineering, Western Pine is a must with all its tough but pretty quality.

Yesterday's theme, tomorrow's plan. Western Pines bring the past to the present, the present to the future in this warm, friendly kitchen.

storage & utility

Handy, dandy and candy. Sweet pine, both painted and in knotty paneling, can work anything in most anywhere—shelf, cabinet, cupboard or woodwork.

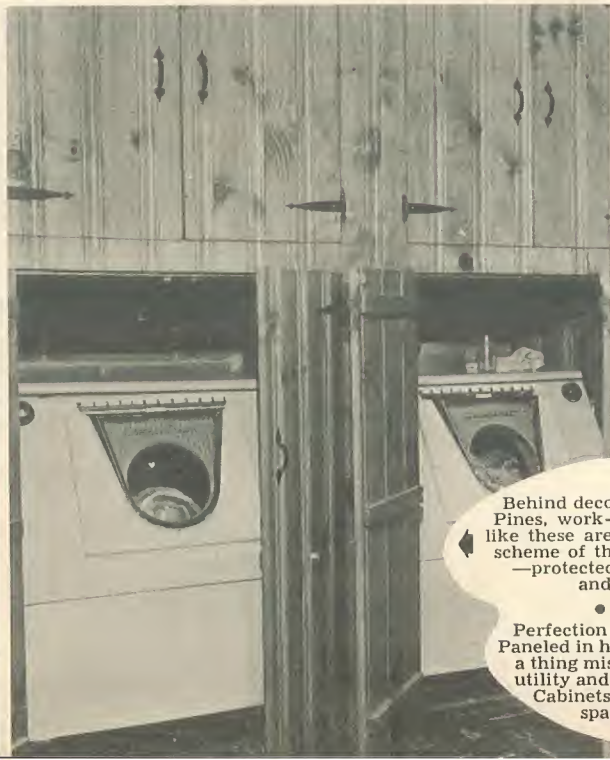

A place for everything—big, little or middle-sized. Knotty paneling with natural finish makes "putting away" a dream.

No fumbling for socks or shirts sleepy mornings. This is pine closet storage with a place for everything.

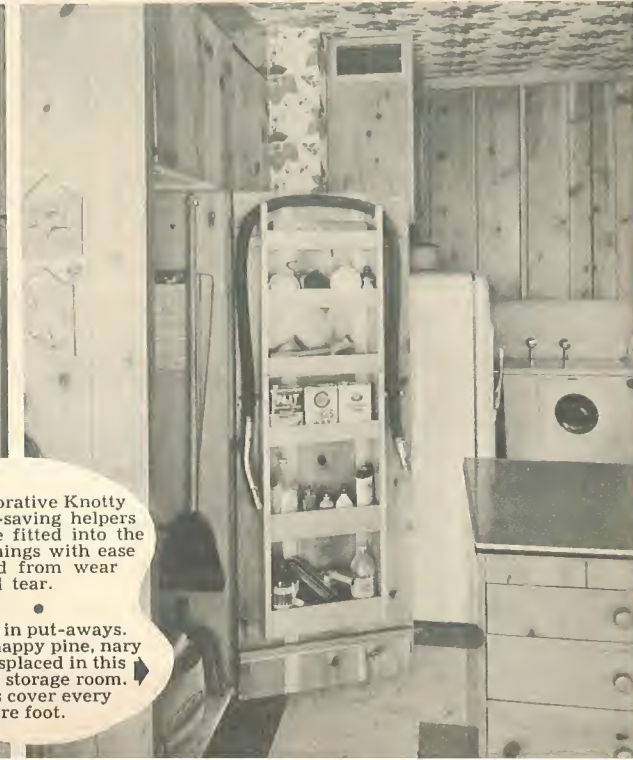

Kitchen storage is important, and here is one way to get it. Knotty Pine, fitted to the rest of the kitchen theme, blends utility closets in with other cabinets.

Behind decorative Knotty Pines, work-saving helpers like these are fitted into the scheme of things with ease—protected from wear and tear.

Perfection in put-aways. Paneled in happy pine, nary a thing misplaced in this utility and storage room. Cabinets cover every spare foot.

Recreation rooms and Knotty Pine were made for each other. Matching durability with low upkeep and no maintenance worries, Knotty Pine paneling is a must in any party or rumpus room. Pleasant, friendly beauty sets a jovial, warming mood. Such a room is a must in any home, too.

exteriors

Bevel siding, perfect exterior. Handsome, too, up close as a back drop to outdoor patio life.

Knotty siding, too! Beauty of nature is exposed to all eyes. Tough to beat, even by the elements.

Pine and patio. Here it is wood, native stone and the great outdoors all combined in perfect setting. Board'n'batten siding backs it up.

Exteriors in Western Pine hold finishes, are easy to maintain. Straight lines, even texture of this bevel siding in pine show clearly in perspective.

Board'n'bat and painted V-joint siding combined are peach of a pair—especially when they are in Western Pine.

Board and batten used as vertical siding above, horizontal bevel siding below. The trees, like the wood in the home, are Western Pine. Note how round-trimming gives effect of gingerbread.

Repetition in wood. Siding theme is carried through from house to garage, even through two-car sized door.

Perspective in pine. Truly the finest in horizontal siding design. Modern in taste and practicality.

Inside or outside,
the Woods of the
Western Pine Region
are able to perform
just as you want them
to in the home of your
dreams. Natural or
painted, the warmth
these woods reflect
sets the personality
of a home.
